

## Member conduct for transportation services

Any member who uses transportation services by AmeriHealth Caritas North Carolina is responsible for following conduct guidelines as outlined below:

- If you risk the safety of other passengers and/or the driver, your transportation services may be suspended for 30 days by AmeriHealth Caritas North Carolina.
- NEMT riders also are subject to the conduct policies of their transportation service providers. Your transportation services can be suspended by the transportation service provider for more than 30 days for breaking any of the service's conduct policies.
- If you are suspended from transportation services for violating the transportation service provider's conduct policy, you will be given a mileage reimbursement log to document trips to Medicaid covered services as long as you remain otherwise eligible for transportation assistance.
- If you are temporarily suspended from transportation services for violating a conduct policy, you should receive a notice explaining the reason and duration of your suspension.

## No-show policy for transportation services

**You are responsible for following the “no-show” rules:**

- You must be at the agreed upon pickup location at the scheduled time.
- You must complete your trip and show a completed mileage reimbursement log to be reimbursed for mileage.
- To cancel a scheduled trip, you must contact the transportation service at least 24 hours in advance. If you don't cancel at least 24 hours in advance, it may be considered a no-show, unless there was a good reason for the cancellation.
- After the first no-show, the transportation service provider will note on your account that you did not show.
- After the second no-show, you may be asked to call the transportation service provider one hour before pickup to confirm that you need a ride. If you continue to not show for scheduled rides, you may be suspended from using the transportation service. If you are suspended, you will receive a notice showing the dates of the suspension and any previous no-shows.
- If you are a critical needs member, such as receiving dialysis or chemotherapy, you cannot be denied transportation to critical services. However, you can be suspended from receiving non-emergency transportation to non-critical appointments.
